

HM CORONER FOR SOUTH YORKSHIRE (EAST) AND WEST YORKSHIRE (WEST)

Inquests into the Deaths Resulting from the Hillsborough Stadium Disaster

INDIVIDUAL QUESTIONNAIRE FOR JURY DETERMINATIONS

Name of Person: John Alfred Anderson

1. Medical Cause of Death

What was the medical cause of the person's death?

Traumatic rupture of the abdominal aorta

In answering this question, please note:

- You should take account of the agreed expert evidence of the pathologists as to the cause of death of this person, including any contributory cause.
- Although it is a matter for you, you may wish to adopt the cause of death given by the experts (e.g. "Compression Asphyxia").
- The cause of death given by the experts appears in your table and in the medical summary at **tab 1**.

2. Time of Death

Please state the time of death for the person. This should be stated as a specific time of death.

15:08 on 15 April 1989

In answering this question, please note:

- The pathologists have agreed upon a specific time of death for this person. The Coroner has decided as a matter of law that you should not consider adjusting this time, because on the available evidence it would not be safe to do so. You are invited to adopt that time of death.
- The time of death given by the experts is set out in your table and in the medical summary at **tab 1**.

HM CORONER FOR SOUTH YORKSHIRE (EAST) AND WEST YORKSHIRE (WEST)

Inquests into the Deaths Resulting from the Hillsborough Stadium Disaster

INDIVIDUAL QUESTIONNAIRE FOR JURY DETERMINATIONS

Name of Person: Colin Mark Ashcroft

1. Medical Cause of Death

What was the medical cause of the person's death?

Compression asphyxia

In answering this question, please note:

- You should take account of the agreed expert evidence of the pathologists as to the cause of death of this person, including any contributory cause.
- Although it is a matter for you, you may wish to adopt the cause of death given by the experts (e.g. "Compression Asphyxia").
- The cause of death given by the experts appears in your table and in the medical summary at **tab 2**.

2. Time of Death

Please state the time of death for the person. This should be stated as a bracket between (i) the last point in time when it can be established that the person was probably alive and (ii) the point in time by which it can be established that the person had probably died.

From: 14:57 on 15 April 1989	To: 15:20 on 15 April 1989
------------------------------	----------------------------

In answering this question, please note:

- The pathologists have agreed upon a broad bracket for the time of death of this person.
- You may adopt that bracket or you may consider adjusting it in accordance with the Coroner's directions.
- The time bracket given by the experts and the option for adjusting it are set out in your table and in the medical summary at **tab 2**.

HM CORONER FOR SOUTH YORKSHIRE (EAST) AND WEST YORKSHIRE (WEST)

Inquests into the Deaths Resulting from the Hillsborough Stadium Disaster

INDIVIDUAL QUESTIONNAIRE FOR JURY DETERMINATIONS

------------------------------	----------------------------

In answering this question, please note:

- The pathologists have agreed upon a broad bracket for the time of death of this person. The Coroner has decided as a matter of law that you should not consider adjusting that bracket, because on the available evidence it would not be safe to do so. You are invited to adopt that bracket.
- The time bracket given by the experts is set out in your table and in the medical summary at **tab 21**.

HM CORONER FOR SOUTH YORKSHIRE (EAST) AND WEST YORKSHIRE (WEST)

Inquests into the Deaths Resulting from the Hillsborough Stadium Disaster

INDIVIDUAL QUESTIONNAIRE FOR JURY DETERMINATIONS

Name of Person: Gary Collins

1. Medical Cause of Death

What was the medical cause of the person's death?

Compression asphyxia

In answering this question, please note:

- You should take account of the agreed expert evidence of the pathologists as to the cause of death of this person, including any contributory cause.
- Although it is a matter for you, you may wish to adopt the cause of death given by the experts (e.g. "Compression Asphyxia").
- The cause of death given by the experts appears in your table and in the medical summary at **tab 22**.

2. Time of Death

Please state the time of death for the person. This should be stated as a bracket between (i) the last point in time when it can be established that the person was probably alive and (ii) the point in time by which it can be established that the person had probably died.

From: 15:02 on 15 April 1989	To: 15:23 on 15 April 1989
------------------------------	----------------------------

In answering this question, please note:

- The pathologists have agreed upon a broad bracket for the time of death of this person. The Coroner has decided as a matter of law that you should not consider adjusting that bracket, because on the available evidence it would not be safe to do so. You are invited to adopt that bracket.

In answering this question, please note:

- You should take account of the agreed expert evidence of the pathologists as to the cause of death of this person, including any contributory cause.
- Although it is a matter for you, you may wish to adopt the cause of death given by the experts (e.g. "Compression Asphyxia").
- The cause of death given by the experts appears in your table and in the medical summary at **tab 42**.

2. Time of Death

Please state the time of death for the person. This should be stated as a bracket between (i) the last point in time when it can be established that the person was probably alive and (ii) the point in time by which it can be established that the person had probably died.

From: 15:00 on 15 April 1989	To: 15:21 on 15 April 1989
------------------------------	----------------------------

In answering this question, please note:

- The pathologists have agreed upon a broad bracket for the time of death of this person. The Coroner has decided as a matter of law that you should not consider adjusting that bracket, because on the available evidence it would not be safe to do so. You are invited to adopt that bracket.
- The time bracket given by the experts is set out in your table and in the medical summary at **tab 42**.

HM CORONER FOR SOUTH YORKSHIRE (EAST) AND WEST YORKSHIRE (WEST)

------------------------------	----------------------------

In answering this question, please note:

- The pathologists have agreed upon a broad bracket for the time of death of this person. The Coroner has decided as a matter of law that you should not consider adjusting that bracket, because on the available evidence it would not be safe to do so. You are invited to adopt that bracket.
- The time bracket given by the experts is set out in your table and in the medical summary at **tab 62**.

HM CORONER FOR SOUTH YORKSHIRE (EAST) AND WEST YORKSHIRE (WEST)

Inquests into the Deaths Resulting from the Hillsborough Stadium Disaster

INDIVIDUAL QUESTIONNAIRE FOR JURY DETERMINATIONS

Name of Person: John McBrien

1. **Medical Cause of Death**

What was the medical cause of the person's death?

Compression asphyxia

In answering this question, please note:

- You should take account of the agreed expert evidence of the pathologists as to the cause of death of this person, including any contributory cause.
- Although it is a matter for you, you may wish to adopt the cause of death given by the experts (e.g. "Compression Asphyxia").
- The cause of death given by the experts appears in your table and in the medical summary at **tab 63**.

2. **Time of Death**

Please state the time of death for the person. This should be stated as a bracket between (i) the last point in time when it can be established that the person was probably alive and (ii) the point in time by which it can be established that the person had probably died.

From: 15:00 on 15 April 1989	To: 16:35 on 15 April 1989
------------------------------	----------------------------

In answering this question, please note:

- The pathologists have agreed upon a broad bracket for the time of death of this person. The Coroner has decided as a matter of law that you should not consider adjusting that bracket, because on the available evidence it would not be safe to do so. You are invited to adopt that bracket.
- The time bracket given by the experts is set out in your table and in the medical summary at **tab 63**.

- Although it is a matter for you, you may wish to adopt the cause of death given by the experts (e.g. "Compression Asphyxia").
- The cause of death given by the experts appears in your table and in the medical summary at **tab 83**.

2. Time of Death

Please state the time of death for the person. This should be stated as a bracket between (i) the last point in time when it can be established that the person was probably alive and (ii) the point in time by which it can be established that the person had probably died.

From: 14:57 on 15 April 1989	To: 16:15 on 15 April 1989
------------------------------	----------------------------

In answering this question, please note:

- The pathologists have agreed upon a broad bracket for the time of death of this person. The Coroner has decided as a matter of law that you should not consider adjusting that bracket, because on the available evidence it would not be safe to do so. You are invited to adopt that bracket.
- The time bracket given by the experts is set out in your table and in the medical summary at **tab 83**.

HM CORONER FOR SOUTH YORKSHIRE (EAST) AND WEST YORKSHIRE (WEST)

Inquests into the Deaths Resulting from the Hillsborough Stadium Disaster

INDIVIDUAL QUESTIONNAIRE FOR JURY DETERMINATIONS
